ANUSH BATHLA

SOFTWARE ENGINEER | B.TECH CSE (AI/ML) STUDENT

Meerut, Uttar Pradesh, India | 9837603778 | anushbathla@gmail.com
GitHub | LinkedIn

PROFESSIONAL SUMMARY

Computer Science and Engineering student specializing in Artificial Intelligence and Machine Learning, interested in software development, web technologies, and practical problem-solving. Familiar with Python, C, JavaScript, React, Node.js, HTML, CSS, and Git. Developing project concepts and prototypes, with an emphasis on building useful software solutions and strengthening engineering fundamentals. Seeking software engineering internship and entry-level opportunities.

EDUCATION

IIMT University — Meerut, Uttar Pradesh

Bachelor of Technology (B.Tech), Computer Science and Engineering (AI/ML) | Expected graduation: 2029

Current CGPA: 7.8

TECHNICAL SKILLS

Programming: Python, C, JavaScript

Web Development: HTML, CSS, React, Node.js

Tools: Git, GitHub, Visual Studio Code

PROJECTS

MyCampus — Student Event Management Platform

- Concept for a centralized platform to help students discover university events and competitions.
- Planned features include event listings, student registration, and centralized event information.

Suraksha Kavach — Smart Safety Belt for Sewer Workers

- In-progress IoT safety concept intended to detect hazardous gases in sewer environments.
- Planned detection of methane (CH■), carbon monoxide (CO), and hydrogen sulphide (H■S), with proposed buzzer, LED, SOS, GPS, SMS, and OLED alerts.
- Exploring sensor-based alert logic and circuit simulation for an initial prototype; not presented as a completed or field-tested safety product.

Smart Waste-to-Value Network

- Concept for connecting waste generators, collection workers, and recycling services through a digital platform.
- Proposed features include GPS-based collection tracking, AI-assisted waste image recognition, and waste categorization.

AREAS OF INTEREST

Software Engineering • Web Application Development • Data Structures and Algorithms • Artificial Intelligence and Machine Learning • Automation

ADDITIONAL INFORMATION

Target roles: Software Engineering Internships and Entry-Level Software Engineer positions
